

A RESOURCE FROM YOUR TRUSTED ADVISOR

International Documents. *Handled With Precision.*

Your advisor has connected you with Global Gold by Emboss — Michigan's premier international document authentication concierge.

"I help serious global investors authenticate critical documents for international use — because one authentication error can jeopardize your entire opportunity. I make sure that doesn't happen."

— MELISSA HANSEN · FOUNDER, GLOBAL GOLD BY EMBOSS

WHAT WE DO

Full-Service Document Authentication

Apostille & Authentication — every U.S. document legally recognized abroad

Golden Visa & Residency Programs — Portugal, Spain, Greece, UAE, and beyond

International Relocation — complete document chain, managed end-to-end

Embassy & Consular Coordination — non-Hague countries handled with precision

Certified Translation — coordinated through vetted partners

WHY THIS MATTERS

This Is Not a Filing Service.

This Is Your Project Manager.

International document authentication is layered, country-specific, and entirely unforgiving of mistakes. Government agencies, strict document age requirements, apostille routing rules, translation standards, embassy coordination — **every step has a consequence.**

Global Gold exists because you deserve a partner who knows the path and treats your documents with the precision you'd expect for a major investment.

HOW IT WORKS

01

CONSULT

Begin with a private consultation. We learn your country, your documents, and your deadline — then tell you exactly what's needed.

02

AUTHENTICATE

We manage every submission — notarization, apostille, embassy coordination, translation, and courier — handled with precision.

03

DELIVER

Your authenticated documents arrive ready for use — tracked, verified, and vault-stored for your records. You move forward with confidence.

"Every document we touch carries the weight of someone's future. We handle it accordingly."
